

SALES & REVENUE ANALYSIS DASHBOARD

Fiscal Year 2024 | Business Intelligence Report

Prepared by: Internship Project | Date: June 2024

Executive Summary

This report presents a comprehensive Sales & Revenue Analysis for FY 2024, covering 300 transactions across 10 products and 5 regional markets. The analysis leverages an interactive Excel dashboard with KPI tracking, trend charts, product performance rankings, and region-wise breakdowns to deliver actionable business insights.

Key Performance Indicators

KPI	Value	Insight
Total Revenue	■1,84,32,150	Strong year-over-year performance
Total Units Sold	7,842 units	Average 654 units/month
Total Profit	■50,38,920	27.3% overall profit margin
Avg Order Value	■61,440	High-ticket electronics drive AOV
Total Orders	300 orders	25 orders processed per month
Top Product	Laptop	Highest revenue contributor
Best Region	North	20.4% market share

Monthly Revenue & Profit Trend

Revenue remained consistent throughout the year with a notable peak in Q4 (Oct–Dec), driven by holiday season demand for electronics and accessories. Q1 showed the lowest performance, suggesting opportunities for targeted promotions in January–March.

Month	Units Sold	Revenue (■)	Profit (■)	AOV (■)
January	618	14,85,230	4,12,450	24,020
February	632	15,12,870	4,23,190	23,940
March	645	15,34,560	4,31,230	23,760
April	658	15,98,120	4,45,280	24,290
May	671	16,23,480	4,52,650	24,190
June	660	16,08,750	4,49,230	24,370

July	648	15,76,340	4,42,580	24,330
August	663	16,31,200	4,55,140	24,600
September	672	16,42,890	4,59,820	24,450
October	680	16,98,450	4,73,190	24,980
November	695	17,34,780	4,88,260	24,960
December	700	17,85,480	4,96,100	25,510

Top Product Performance

Laptops and Smartphones together contribute over 45% of total revenue. High-value items like Monitors and Tablets show strong profit margins, while accessories (Keyboards, Mice) drive volume. Diversification across categories reduces dependency on a single product line.

Rank	Product	Category	Units	Revenue (₹)	Profit (₹)
1	Laptop	Electronics	892	40,12,400	11,23,470
2	Smartphone	Electronics	1,245	36,87,250	10,24,150
3	Tablet	Electronics	934	24,56,780	6,98,240
4	Monitor	Electronics	567	18,34,560	5,12,340
5	Smartwatch	Accessories	723	12,67,890	3,87,560
6	Headphones	Accessories	1,102	11,23,450	3,34,120
7	Speaker	Accessories	456	8,45,670	2,56,780
8	Webcam	Electronics	489	7,23,890	2,12,340
9	Keyboard	Accessories	1,123	4,56,780	1,34,230
10	Mouse	Accessories	1,311	3,24,480	0,95,690

Region-wise Sales Analysis

The North region leads in revenue with a 20.4% market share, followed closely by the South and East regions. The Central region presents the greatest growth opportunity, currently holding only 18.1% of total market share. Targeted campaigns in Central and West regions could significantly boost overall revenue.

Region	Units Sold	Revenue (₹)	Profit (₹)	Market Share
North	1,608	37,98,450	10,56,230	20.4%
South	1,572	37,12,340	10,32,450	19.9%
East	1,589	37,56,780	10,45,320	20.2%
West	1,543	36,78,230	10,21,980	19.8%
Central	1,530	35,86,350	9,96,580	19.2%
TOTAL	7,842	1,85,32,150	51,52,560	100%

Key Insights & Recommendations

Q4 Growth Opportunity

Revenue peaks in Q4 suggest seasonal demand. Pre-stocking and promotional campaigns in October can maximize this window.

Product Mix Optimization	Laptops and Smartphones drive 45% of revenue but have lower margins. Promoting high-margin accessories as bundles can improve overall profitability.
Regional Expansion	Central region underperforms relative to population size. Targeted regional marketing campaigns could unlock an estimated 8-12% revenue uplift.
Customer Retention	Average Order Value of █61,440 indicates high-value customers. A loyalty program could increase repeat purchase rates by 15-20%.
